

- (3) Be designed to achieve the solid waste reduction goals established by the plan.
  - (4) Include a description of the process by which the plan was developed, including provisions for public participation in the development of the plan.
  - (5) Include an assessment of current programs and a description of intended actions with respect to the following solid waste management methods:
    - a. Reduction at the source.
    - b. Collection.
    - c. Recycling and reuse.
    - d. Composting and mulching.
    - e. Incineration with energy recovery.
    - f. Incineration without energy recovery.
    - g. Transfer outside the geographic area covered by the plan.
    - h. Disposal.
  - (6) Include an assessment of current programs and a description of intended actions with respect to:
    - a. Education with the community and through the schools.
    - b. Management of special wastes.
    - c. Prevention of illegal disposal and management of litter.
    - d. Purchase of recycled materials and products manufactured with recycled materials.
  - (7) Include a description and assessment of the full cost of solid waste management, including the costs of collection, disposal, waste reduction, and other programs, and of the methods of financing those costs.
  - (8) Consider the use of facilities and other resources for management of solid waste that may be available through private enterprise.
- ~~(c) The Department may reduce or modify the municipal solid waste reduction goal that a unit of local government is required to attempt to achieve pursuant to subsection (b) of this section if the unit of local government demonstrates to the Department that:~~
- ~~(1) The achievement of the goal would have an adverse effect on the financial obligations of the unit of local government incurred prior to 1 October 1989 that are directly related to a waste-to-energy facility owned or operated by or on behalf of a unit of local government; and~~
  - ~~(2) The unit of local government cannot remove normally combustible materials from solid waste that is to be processed at a waste-to-energy facility permitted prior to 1 July 1991 because of the need to maintain a sufficient amount of solid waste to ensure the financial viability of the facility. The goal may not be waived entirely and may be reduced or modified only to the extent necessary to alleviate the adverse effects of achieving the goal on the financial viability of a unit of local government's waste-to-energy facility. Nothing in this subsection shall exempt a unit of local government from developing and implementing a recycling program pursuant to this Part.~~
